

Medleaf Medium THC Shishkaberry

SHISHKABERRY ACTIVE INGREDIENTS: TOTAL THC 15.25% TOTAL CBD <0.5%

FLOWER CHARACTERISTICS

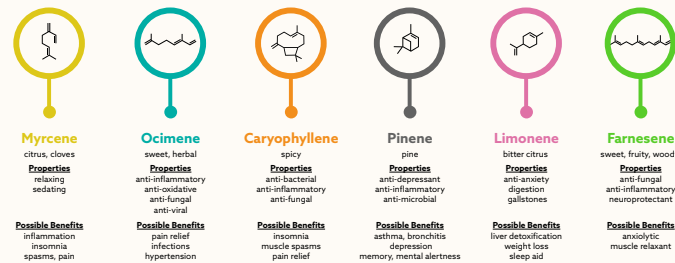

Medleaf Medium THC Shishkaberry (Shishkaberry for short) is considered a Medium THC Cannabis flower.

The strain, is a cross of an unknown Afghani land race with a strain called "DJ Short Blueberry" resulting in Indica dominant traits and a sweeter aroma than typically found in Cannabis, along with a visual trait of a small degree of purpling in the flowers. Medleaf categorizes the strain as a Medium Indica, both due to its THC potency and its genetic expression.

AROMA

Primarily sweet fruit and berry scents.

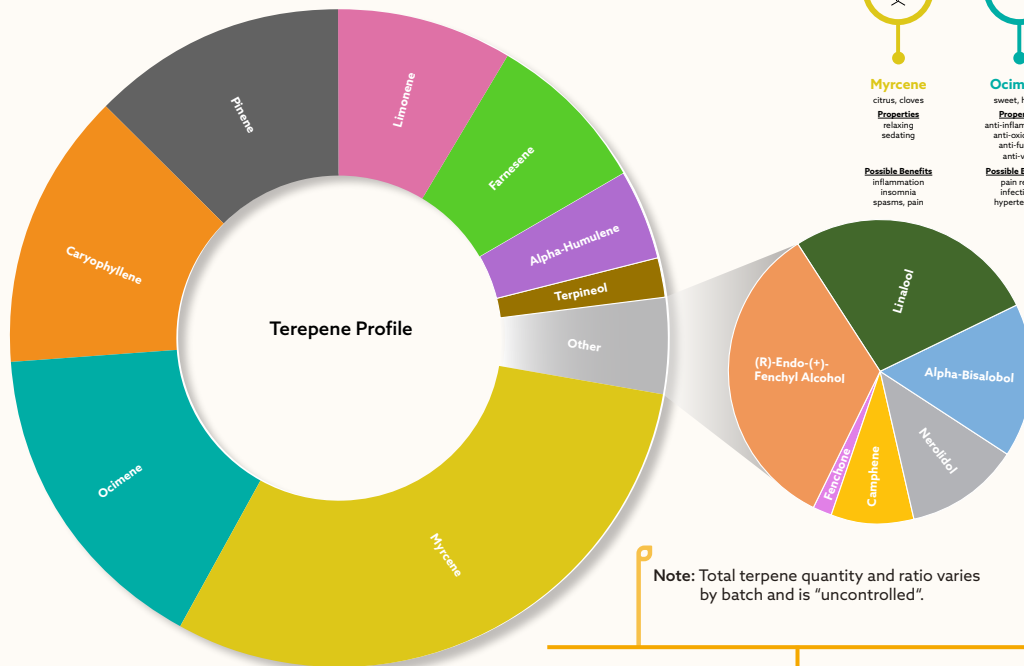

MAIN TERPENES IN SHISHKABERRY

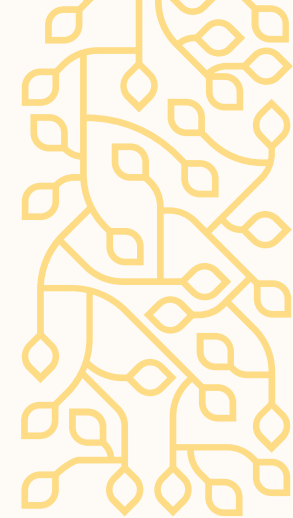

Note: All properties and benefits are considered preclinical and evidenced by lab dish (*in vitro*) and animal (*in vivo*) studies.
